NATIONAL SECURITY

GSA schedule approved, EMCOR Government Services (EGS) employees have the experience and certified training required to perform the facilities work that helps keep our nation's key strategic facilities safer, more efficient and ever-ready.

Customs and Border Protection (*border stations in AZ and TX Gulf Coast*)

Our contract with U.S. Customs and Border Protection (CBP) extends the length of Arizona's 389-mile border with Mexico, traversing extremely remote desert regions, where roads are sometimes challenging. Besides performing comprehensive preventive maintenance on 3,500 pieces of equipment in CBP's 127 border facilities, EGS also maintains vehicle lifts and gasoline dispensers, performs drinking water testing and thermal imaging of electrical systems, and removes residual lead HAZMAT from shooting ranges.

In Texas, EGS is responsible for maintenance and repair of more than 4,500 individual mechanical assets at 203 facilities (1.2 million SF), stretching 515 miles along the Mexican border, from Brownsville to Comstock. EGS services detention centers, headquarters facilities, roadside checkpoints, firing ranges, and air and Marine facilities at various locations, three of which are full-service hangars.

In order to provide the highest quality services possible, we require that EGS employees stay current with demanded industry practices, and remain fully certified.

EMCOR Government Services engineers are certified in the following disciplines:

- Controls
- Electrical
- Emergency Power
- Energy Management, Audits & Modeling
- LEED
- Mechanical
- Plumbing
- Roof Inspections
- Structural Analysis and Design
- Vertical Transportation

A sampling of EGS facilities solutions:

- Arc-Flash
- Asset Numbering / Barcoding
- Building Commissioning & Retro-commissioning
- Construction Inspections & Document Reviews
- Criticality Assessments
- Design-Build Project Delivery
- Diagnostic & Forensic Engineering
- Due Diligence / Property Transfer Inspections

Energy efficiency certifications:

Defense Intelligence Analysis Center (DIAC) - Washington, DC

EGS serves the headquarters of the Defense Intelligence Agency at its Defense Intelligence Analysis Center (DIAC), a 1.5 million square foot secure facility that houses some of the intelligence community's and the Department of Defense's top decision makers. EGS provides facilities management, operation, maintenance and repair of all mission-critical equipment, systems and structures necessary for the building to function. EGS also provides janitorial service, grounds upkeep, street sweeping, snow removal, pest control, refuse collection and recycling, and some construction services.

29,000+

EGS draws from a growing nationwide network of highly skilled professionals

Naval Maritime Intelligence Center (NMIC) - Suitland, MD

NMIC is a secure site often visited by dignitaries. EGS provides NMIC's five buildings (approx. 1 million square feet) with operation, maintenance and repair of MEP and Fire Protection/Life Safety systems; 24/7 mission-critical plant operations; custodial service; fire protection and life safety; and grounds upkeep for 11.5 of NMIC's 40 acres. EGS completed a paver project in front of the visitor's entrance and also oversees the campus's memorial gardens and exercise trails.

A sampling of the National Security facilities EGS serves:

Air Force Reserve	Department of the Navy
Air National Guard	Department of Homeland Security
American Red Cross	Fort Belvoir
Anacostia Naval Station	Fort Eustis
Army National Guard Readiness Center	Fort Huachuca
